## About This Book

### Who Should Use This Book

### How This Book is Organized

### Where to Find More Information

## Chapter 1. Quick Start Checklist

### Building Non-distributed Applications

### Building Distributed Applications

## Chapter 2. Introducing somFree

### Understanding somFree

## Chapter 3. Building the Classes

## **Step 1: Determining What to Use**

## **Step 2: Creating the Source IDL for the Classes**

## **Step 3: Running the somFree Compiler**

## **Step 4: Updating the Implementation Templates**

## **Step 5: Compiling the Implementation Code**

## **Step 6: Linking the Object Code**

# **Chapter 4. Using the Classes in an Application**

## **Step 1: Determining What to Use**

## **Step 2: Creating the Application**

## **Step 3: Compiling the Application Code**

## **Step 4: Linking the Application**

## **Step 5: Running the Application**

# **Chapter 5. Running in a Distributed Environment**

## Creating Distributed Classes

## Registering the Classes and Application Server

## Creating a Distributed Client Application

# Chapter 6. For More Information

## somFree Library Reference

## Summary of Sample Data Sets
