May 14, 2005

- osFree mentioned at osViews.com in article about ReactOS:

[1]

- Samuel A. Falvo II released first boot sequence prototype [2].

Check Boot sequence forum for more information.

- Old forum replaced by more powerfull forum system (PhpBB). osFree skin is bad ;) We are looking for web-page designers.
- Kernel selected. It is L4 Microkernel [3]. Most probably ReactOS will be ported to L4 also (things happen).

As result we can have 'Virtual drivers' like from L4Linux [4].

site, development
